
Western Soul

There is a new movie on the mod scene in So. California that apparently came out recently. Haven't seen it, but the trailer looks good. It should be out on DVD this summer.

This kind of reminds me of Ghost World, another movie on hip California subcultures centered on a group of young women (adaptation of a comic strip by an artist from Berkeley, Calif.)

Thanks for bringing this to my attention. Never heard of it, hopefully I can see it on DVD.
