
Anything special for Euro 2008 in the latest WSC?

Posted by Inca - 09-05-2008 17:21

I let my subscription expire a while back (could not justify spending nearly \$100 on it), so I haven't read WSC in a while. Any special poster in this issue?

The usual wallchart plus a guide on who and why to support, seeing as how none of the teams from blighty will be there.

Okay, blatant self promotion but you did ask...

Euro 2008 wallchart and guide details here

Latest issue details here

If you want to buy WSC and can't get to a shop that stocks it, you can buy it from the site here and it will be posted to you same day
