Have you ever visited the planet Earth?

Yes, I detoured the spaceship to renew my Newcastle season ticket.

I know Austria's friendly results have been poor, and I wouldn't stake any money on them, but it's just a hunch that they may exploit home advantage.

QF4: Spain 2:1 Italy (aet)

SF2: France 2:2 Spain (France on pens.)

Final: Croatia 1:3 France

I'm sure this has at least one basic factual error in it somewhere, but then the others probably have too. Is anyone checking these for continuity? I mean, aside from charges of wild unreasonableness.

What we really need is a website where we can make an OTF group with everyone's E08 predictions tabulated and scored, like we had way back for Euro2000.

JtS is the only one two predict the winners correctly. I'm afraid my guesses were horribly wrong.

What we really need is a website where we can make an OTF group with everyone's E08 predictions tabulated and scored, like we had way back for Euro2000.

I've knocked one up on Excel, and I'll keep a tally. Scores so far:

Inca 3
Jupp04 3
Broken Clock 3
Il Visionario Tecnico 3
JtS 2
Cavalry Trouser Tips 1
Lodzubelieveit 1
Merlin the happy pig 1
Big Daves Gussett 1
mats balja arvidsson 1
Zorg the leveller 1
Ralph Dangerfish 0
Pan Tau 0
OngelukkigOranjeVoetbal 0
Felicity, I guess so 0

(Based on right result = 3 points, right score = 1 point)

Not decided what I'm going to do for the knockouts - ideas? I'm thinking:

Scores doubled, if you get one team right, trebled, if both right.

Scores doubled, but you only get points if both teams qualify.

Perhaps introduce a new round of guesses for each round based on the actual pairings?

F'ing Quaresma--I had a correct scoreline for Portugal-Czech Rep going.

Above it says correct result 3pts, correct score 1pt. It should be reversed, right?

And if anyone wants to predict the quarters, do it now (not been online much the last 24 hours). Otherwise I'll take what's already up.

If it's not up in time, I'll take any Portugal v Germany score, otherwise A1 v B2, rather than just give zero points.

Done. No-

Just to emphasise, that the score prediction as at the end of play. No need to indicate extra time or not.

Bugger - missed the first two.

Russia 0 - 3 Netherlands

You shouldn't get the same no. of points as me for that Germany result, Visionario: you thought they'd win easy!

I don't believe in joint winners, so, I'm awarding it to JtS On countback. That countback being:

Neither of us predicted a correct finalist.

He predicted two semi-finalists (Germany & Russia), I predicted 1 (Spain).

Special mention for Ralph Dangerfish as the only one to predict the correct finalists and winner.
